

White Crystal Wind

White Crystal Wind is a 3 foot drum, the Baby of the 7ft Grandmother Drum. This beautiful Community Drum was made in Courtenay on Vancouver Island by 11 people under the guidance of White Eagle Medicine Woman and her assistant Tyemoreye from The Whirling Rainbow Foundation in Alaska. A ceremony was held during the 8 hours it took to build her and it was blessed by many loving hands.

White Crystal Wind is made of moose hide and is laced with a pattern of 64 holes in the top hide and 64 in the bottom. This Drum is full of Love and you can feel this when you play her. Her tone is amazing and lives on long after the playing stops.

These days are so special because people are allowing themselves to honour the pieces within that need love. Many are becoming more aware of healing through vibration. It is fitting now, that drumming is one way of healing that is being brought back into our lives.

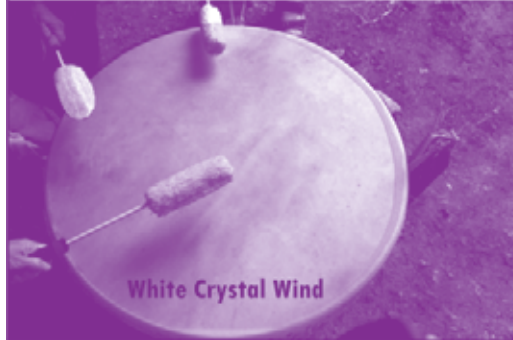

When we are drumming we allow ourselves to be present with the vibrations generated by playing it. As we connect with the beat, it connects to Mother Earth and the Heavens, and joy and peace are set free.

White Crystal Wind was birthed with intention to play at ceremonial and community events. She loves people, and in keeping with the clarity of her vision, no drugs or alcohol are allowed near her. We honour and respect this Drum, healings often manifest within the songs when she plays.

If you would like White Crystal Wind to come play for you or an event or would like to contribute to her livelihood, please call Drumkeeper Rita Burrows @ 250-898-1192 or e-mail burrowsr@shaw.ca

Vancouver Island Ceremonial Community Drum

Invite the drum to join your community event ~by donation~

alcohol/drug free celebrations only
