Winds of Change

## CHANGES Abound at Winds of Change

I can spread my wings and provide the community with so much more! We read many things about affirming the positive, that we co-create our reality, and that what we focus on we indeed shall manifest. So for me having the funds arrive in a timely manner, from an unknown/unlimited source was my focal point, to give the universe a real opportunity to assist me in proving to myself that all these things I read and hear about really work! There were many times when things came together only to fall apart, and I took another angle, prayed to the angels, and put things back together enough times that it worked and I now own the store. I was blessed with many earth angels that donated just the right things at the last moments to make the deal keep rolling forward.

And so I join the ranks of the others that have seen it work, believe it works, and am happy to confess the reality of manifesting seems to be a tricky business...ha ha ha...it is a constant event, that flows like a river through our lives, and I think we learn how to navigate in the dark by the stars that light our way. We are blessed to have so many tools to assist us in living in the moment, for it truly is the power of presence that creates presents in your life....whether that be a new business, or a smile from a man at the bus stop. The universe is listening and our beloved presence knows no order of difficulty, large or small, it matters not, what matters is that we stay true to our heart, and say Yes! Be willing to receive the abundance that surrounds you, claim it for your own...you are worthy of every good thing!

First I want to thank everyone who has supported me throughout the past few months. This was definitely an adventure.... manifesting my dream of owning a metaphysical store into reality. Well in fact the dream is bigger than 'just owning' Winds of Change but the store is a perfect venue in which

I would like to invite you to visit the store. We are going on-line in the future if you don't happen to make it to the Comox Valley often. We still have the same mandate to promote fair trade crafts, environmentally friendly practices/products, talented island artists, and wherever possible Made in Canada products. We will continue carrying a large selection of spiritual, self help, and meditation books, cards, and CD's. We also carry musically tuned wind chimes, tuning forks, and Tibetan bowls with a plan on expanding into crystal bowls. We will also be expanding our crystal lines, and providing some sacred geometry items. So basically Winds of Change is bringing the BEST of the past forward, which is the solid platform onto which we plan of bringing you exciting new products and services. Offering a variety of exceptional readers/healers, we will provide several highly skilled individuals including a gypsy tarot card reader, mayan astrology reader, angel card reader, aura program reader/healer, psychic card reader, crystal reader, intuitive/reader. Plus we look forward to hosting many fun spirit based events as we get settled and underway. Feel free to contact me if you KNOW 'what you make' would be perfect for our store!

Blessings to all the individuals that support local businesses, your contributions are what help many sole proprietors live their dreams! Come in and introduce yourself and check out ALL the treasures we have in store for you! Amanda
