When you enter the doors of **EuroScape Spa** you notice 3 things in particular... a delightful fresh energy, a brilliant white smile and the friendly breeze of a wagging tail. **This formula is definitely a winning combination.**

Terry Lenore, RMT, the owner/operator of the ‘old fashioned friendly smile’, has gone to considerable effort and expense to create a gentle, quiet, friendly environment meant to put clients at ease. It might appear to be in direct contrast to all the high tech equipment she is the master of, but it is actually a fascinating fit. Her quest...to do the unimaginable; bring the concept of ‘everyone deserves a beautiful body’, *once reserved for the Hollywood stars*, right here to Vancouver Island. With spas in Qualicum, Courtenay and Nanaimo, she is ready to make this opportunity available to everyone. **Body Sculpting** is the name of the game and feeling good is the ultimate goal. Every detail has been considered, custom plans are ready to be developed for each client. The stage is set, the only thing you need to do now - is come check it out.

As for the wagging tail... that belongs to Annie... a most loving and intelligent pup. If she really were in Hollywood, they would billboard her as ‘the counting dog’! True, Annie can count - come see for yourself! 1 to 10 and back again; mix them up, she doesn’t mind, as she cleverly watches over the most amazing array of the latest, the greatest, the safest equipment on the market today. So if you’ve been holding back your smile and hiding your bathing suit...drop by for a chat with Terry and Annie, and see for yourself how you CAN, over a course of a few treatments, discover ‘that real you’ once again. **It’s not about trying to change yourself into something you are not, it’s about ‘finding yourself’ again in a safe way.**

The rave reviews are coming in, it’s affordable and there are introductory specials. So go back to school in style... prepare the Thanksgiving feast with a new flat tummy or give yourself a Christmas present of simply feeling better than you have in years. You deserve it!
