## Scientists Find New Supercharging Protein

In the past we've hoped to cure disease with super drugs but scientists are now showing us how to supercharge our natural defenses with a unique protective protein found in a nutraceutical called "Immunocal".

**Dr. James Balch**, author of "Prescription for Nutritional Healing" says, "It's my opinion that everyone should be taking Immunocal. Today, there's no better way to boost your immune system."

**Dr. Luc Montagnier**, winner of the 2008 Nobel Prize in Medicine for his co-discovery of the HIV virus, devotes a chapter in his book to the role of Immunocal in combating Cancer, AIDS and Neurodegenerative Diseases.

**Dr. W. Droge** was head of the Department of Immunochimistry at the National Cancer Research Centre of Germany, and he says that "Immunocal overcomes a cellular deficiency that is most commonly seen in old age."

Find out how this protein can protect you from viruses and bacteria by building glutathione in your cells and how this, in turn, can help protect against and reverse the symptoms of: **Cancer, Heart Disease, Diabetes, Fibromyalgia, Rheumatoid Arthritis, Lupus, Alzheimers, Parkinsons, Macular Degeneration, Lung Disease, MS, Crohn's Disease.**
