

Greetings on this third triad of your year of the 11 - a most powerful and amazing Gateway year. It is a time when the 'true friend within' begins to awaken in a truer sense. It is a delight to hear your vibration truly begin to rise up beyond the veil ! Well Done.

We say this because it is a time when Beings of Light are challenged in new ways. We encourage you to hold steadfast to what you believe in, and note there are things unfolding right now that you have waited years to transpire. Thank goodness! Many of you have ignored the 'impossibility' of the reality-of-the-situation and never let go of the dream. Your ability to believe in yourself and in your source-family, NOW begins to serve you against all odds. It is the time when the fruits of your diligence will reveal itself ... and you would do well to believe even MORE, so that your harvest will be beautiful and abundant. Let the fruits of your labour present themselves to your table, and like a gracious host, prepare a plate to receive them so they may serve you.

What a time to stay 'in love' with everyone around you, as the Gateway of amazing Transformation opens up like never before. In simple terms, it is similar to an energetic doorway that is vast and yet totally contained in love. It is a stable and precise vibration, designed specifically to assist planetary hearts so the people may then assist 'the all'. It is a pillar of invisible light that is orchestrated from the highest of the high and like a divine mother/father, watches over your travelling to see you safely to your destination. It is a time of amazing opportunity for people of like minds to gather, and together accelerate the energetics for the greater good of themselves and everyone around them.

SHINE with LOVE from the INSIDE Out

The Gateway times are special - they are precious - priceless indeed.

The 11:11 Gateway for this year of the 11 begins to quietly/gently open up in the vicinity of your 9:9:9 calendar time (September 9, 09). Depending on how you choose to facilitate your personal transformation, will have some factor in how quickly it spreads a vibration of loving forgiveness. It is not going to do it for you, but it will surround you with a loving supportive vibration to assist you to do it for yourself. Assuming a great number of individuals take this opportunity, the potential for groups around the world to come together on the 11 day of the 11 month (Nov. 11) and speed up their own process is gigantic. This coming together will support and emblazen the very air you breathe - the grains of sand - the sound in the water...all of this will result so that the vibration of your year of 2010 may center itself with a fresh start, previously unheard of. It is as if a master architech removes all of the old buildings that are no longer stable , as if the wind blows through and sweeps away old dust balls of discordant energy. It is as if the sun warms the very heart of you and the stars light up the shadows of your dreamtime. It takes so little for

each one to contribute, than when many join with each other...proud to be yourself - the symphony, the dance truly begins. This final triad of your year is a perfect time for the ancient sacred geometry patterns to begin to resonate within and have the potential to make your life even better.

These are the times to see the light even when there appears to be none. Days for '**living beyond the heart**' which is a concept of love of the highest sort. Where one transcends all the petty goings-on of the people around them. And yet it does not mean we ignore them, that would be too easy. HA HA HA. Rather, we say, it is a powerful act when you can live fully on your own spiritual path and still kindly embrace the others around you...even the prickly ones.

LOVE, LOVE, LOVE, JOY, JOY JOY and GREAT GRATITUDE for the insight to be 'consciously' doing so... for those of an expanded consciousness, it becomes easy. So we say keep trying - practice makes perfect and every smile you bestow is a spark of transformation.

YES indeed! These are times for making miracles and 'the ancient architects' from forever (*that would be your beautiful selves*) are THE ONES to do just that. Happy Days of Light Transcending...Peace and Forgiveness for all.

TODAY WE ARE sending you great love to assist your heart to expand for those who need it most. Sending you great joy to emblazen 'the loving cosmic HA HA HA' into your voice. Sending you pure Peace to fill your every step with prayer and grace

love you we do - beyond measure
