

The Cosmic Convergence

Passport To The New World of 2012

I am drawn to Mayan culture because I like the idea that each day has a tone I can actually hear as it vibrates. Each 'kin' ends as the sun disappears and new assistance comes at every sunrise. Each of us was born under one of the 20 Sacred Sun Signs in combination with one of the 13 Tones. The Maya remember their part of the grand tale since the beginning of time and have recorded when the fourth shift of the ages will occur, as they are the Keepers of Time.

I am a Personal Tzolkin Day Keeper and as such, I know the last 65-day stage 4: COMPLETION ends October 28, 2011. There is a much talk about October 28, 2011 and December 21, 2012. Yet there is an even closer date of significance that you may not be aware of...one that offers us an opportunity to set a new tone for life as we know it. It is the **Cosmic Convergence (Sept. 23rd - 26th 2011)** currently brought to light by Dr. Carl Calleman. The choice of time for this event is based on two phenomena. One is that in the **Mayan Calendar**, there is a great opportunity to make a commitment to a new unity consciousness. The second is the passage of the **Comet Elenin** between the earth and the sun. One powerful interpretation of the effect of this comet is that it will give humanity an enhanced experience of its cosmic origin.

Here are some excerpts about the event in Dr. Calleman's words. *"The Cosmic Convergence is fundamentally about making sure that we as individuals ARE the change that we want to see in the world. This may be very uncomfortable if we have much of our past unprocessed. It is not about putting the blame for the state of affairs of our planet on other people or forces. It is about taking personal responsibility. I think we need to go deep into ourselves and see where we as individuals have contributed to hurting others or the nature of our planet. We have become quite used to complaining about the violence and wars in the world or the threats to its natural state, while secretly blaming others for choices that have contributed to the global deterioration. The idea here is to see and acknowledge all of our choices*

and not get stuck in guilt, but rather find a path to healing through a corrective course of action...

The Cosmic Convergence is about the participants taking responsibility for the Transformation to Unity Consciousness and doing so in a committed way. It is about providing an opportunity for us to commit to bringing about a shift in consciousness polarity in ourselves. While it may be difficult to immediately live up to such a commitment, if it is taken seriously, it will have powerful consequences.

For my own part for this event, I will be participating in a peace festival in France together with Mayan and Hopi elders (<http://www.lothlorienfestival.com/EN>) where we will meditate around it. Because of the nature of the inner work required I feel that the Cosmic Convergence may equally be observed individually or, ideally, in small groups that provide a safe environment for sharing. I recommend that we process our past and ourselves in the present moment, in an air of introspection, healing and corrective action drawing on the collective energy of the observance of the Cosmic Convergence around the globe."

Lighting candlelights while participating as groups and individuals is encouraged as people choose their own expressions. **Every person makes a great difference, as light and hope spread to all around.** The presence of the comet Elenin will give a natural connection to the cosmic dimension in this event and at the same time add to our experience of a common destiny of humanity. The Cosmic Convergence, is meant to be a humble yet amazing event, allowing people of unity consciousness to connect on a very deep level, wherever they are on our planet. ONE with each other...EQUALS.

You may check out the website for more info, as there is much to be discussed from the time of activation to the 9th wave. <http://www.calleman.com/content/articles/CosmicConvergenceSeptember23-26.htm>
