

Creatively Speaking

Arms reaching high
Touching the unseen sky
No longer do I wonder why
High high above the blue
I AM connected to you.
The 'I AM' you
of the love and light

My God self
hidden from sight
and yet so true
has been waiting
for this time.
This Divine Recollection
of who am I
God
speaks to me
through the love in my heart
'Finally Child, you see who you are.'

Encircled within the stars
beautiful blue energy of silvery dew
sparkles around me
and my heart gently expands
around the world.

My voice
fills up the rainbow
with my vibration all gold
showering down
through the summer's night.

Into the space below
the moonlight beams
anchor the energy of all this love,
into circles of spinning light.
