

## Co-Creation and Love - a perfect combination!

Co-creation and love will be in the air September 2011 as The ONE, a wonderful spiritual event taking place September 23-25th at the Parksville Conference Centre on Vancouver Island.

This divinely guided, group consciousness, shared creation spiritual event and expo will be unlike any other. The initial energy for the co-creation was set back on the Winter Solstice, lunar full moon of 2010, with the group heart being formed on February 14, 2011. The concept is unique...new and yet ancient in the same breath: Everyone participating will make themselves accountable for the success and come prepared to shine so bright that the side effects will go on forever. As each amazing exhibitor, volunteer, speaker and ticket purchaser comes forward, the co-creation grows! This process will continue right up until the closing ceremonies on Sunday, September 25th at 5pm.

We already know the physical layers: there will be keynote speakers, workshops, lectures, exhibitors and vendors, music, a healing room, readings, opening and closing ceremonies. Yet, perhaps more importantly, what we also know on the energetic and etheric levels is that the vibration will rise over the weekend. People will re-connect with soul friends and family, and we will be in divine service for Mother Gaia (planet Earth). Healings will occur, joy will be anchored, egos will dissipate, people will learn, grow and laugh..... but there is so much more. It is the element of the intangible - the power of the moment that has not yet occurred, yet it can already be felt within the heartlines of the Island and the planet. Thus we all joyfully await the surprise as the co-creation continues. That which will be revealed will come from individual lights coming together with the power of intention...What will YOUR energy bring to this event? How will YOU make a difference? What do you want to share or heal or experience?

The energy of The ONE has already spread beyond Vancouver Island, with **speakers and exhibitors** coming from Nova Scotia, Vancouver, Kelowna, the US and more! **Participants** are currently coming from Florida, Vancouver & area, Penticton, Victoria, Nanaimo, Courtenay/Comox, and the islands. Each day more registrations arrive, delighting the Creation Committee in the manifestation!

With the **Cosmic Convergence** also occurring over these same days, and so much shifting so rapidly on Earth, it is important each of us be mindful of our thoughts, words, actions and intentions. We invite each of you to go within your heart and ask if it is for your highest good to join us these days in creating something NEW, for ourselves, for family, our neighbours, our communities, the children, and our world. Visit our website for updates on exhibitors, speakers, workshops and info on how to register!
