

# SOLOMON Speaks – An Extra-Dimensional Intelligence Healing ~ World Harmony ~ Consciousness ~ Our Existence

*“You are part of a greater plan. It is going to unveil itself in the immediate future. It is of great urgency. Do not fear the power. It is a source of greatness. It is here for ages and always will be. It is being revealed because it is necessary at this time to avoid further catastrophes to come.”*<sup>\*1</sup>

This quote is from the book *‘Solomon Speaks on Reconnecting your Life’*, by Dr. Eric Pearl and Frederick Ponzlov. At this specific time on the planet when many people have endless unanswered questions, the timing of this book is perfect. It actually confirms what many Reconnective Healing® practitioners always suspected, and is the reason that Dr. Eric Pearl gives Reconnective Healing® seminars and interviews 42-45 weeks of the year.

At a certain point in Eric Pearl’s career as a chiropractic doctor, his patients experienced very different, yet quite dramatic healings. Through one of his patients, Fred Ponzlov, Solomon started to speak the following six sentences

1. We are here to tell you to continue what you are doing.
2. What you are doing is bringing light and information to the planet.
3. What you are doing is reconnecting strings.
4. What you are doing is reconnecting strands.

5. You must see/know that you are a master.

6. We have come because of your reputation.<sup>\*2</sup>

To further support the truth of the message, over fifty other patients became temporarily unconscious and a spirit was saying the same six sentences during a time period of three months. Obviously the spirit world wanted to make it clear that something significant was going on.

Eric Pearl then began to periodically go to Fred to ask Solomon the questions he had about this new form of healing. This new book is the account of Solomon’s answers that came forward.

To ensure there is no further confusion about the terminology, these definitions should be clarified. **Reconnective Healing® is a new level of healing** that encompasses all forms of energy healing and more. **The Reconnection® is about our evolution**, reconnecting us to our original blueprint - the Adam Kadmon - because over time humanity became disconnected.

Eric Pearl came to the planet with a higher level of abilities, intent to serve humanity and to help increase their vibrational level. *“You are here now to understand a new type of energy to come. It is going to carry you through a period of great energetic significance... It is here now to involve those who have a purpose to obtain world harmony in this time.”*<sup>\*3</sup>

World harmony IS possible, however it does require humans to be operating at a higher vibrational level. This higher state of consciousness is necessary to reduce the level of catastrophes on the planet. *“Earthquakes ... They are really a manifestation of changes happening in every single one of us.”*<sup>\*4</sup>

Knowing this, the obvious question is asked. Why are so many people constantly talking themselves out of what they have seen in seminars and also experience in their own energy healing? *“They will come to it if they need to come to it. And they will... You are way ahead of the game.”*<sup>\*5</sup> *“Removing the blinders, for many, will come very fast. It is going to happen.”*<sup>\*6</sup> **“Your life is of great purpose now.”**<sup>\*7</sup> I believe this is true.

I feel the excitement because the more people there are intentionally resonating at high vibrational levels together, the faster and easier our evolution will progress.
