

# Assisting Mother Gaia

## A Message from The Alchemy

We are The Alchemy. We are here to assist with the transition of a planet and a people.

As the end of your 2013 draws near, more and more vibrational changes will occur as Mother Gaia and her people, her water beings, her winged ones, her plant kingdom, mineral kingdom and animal kingdom all continue to transition to the new dimensions.

As these changes occur, the importance of working in groups increases. Conscious choice is critical. Physical presence is required. Daily focus and alignment are vital.

As WE step up, we ask YOU to step up. Mother Gaia is not to do this for you, you are to co-create together. Co-creating together means with other people, the animal kingdom, our beloved crystals, the whales and dolphins, the eagles and the hummingbirds, the Angels, the Ascended Masters, your families, your races, your starseeds, and especially your I AM presences. We, The Alchemy, are a collective consciousness here to assist Mother

Gaia and her people in this transition. Other groups and collectives are here as well. We each have our own puzzle pieces, but we are all working towards one goal...the transition to a new dimension for ALL.

In the past you have done much work with your intentions. Now we ask you to be present, in the physical, as much as possible, whether it be on the phone, skype or in person. There is an extra power of creation when people gather intentionally, together. The Soul Signatures and energies of those involved weave the vibration to higher levels. Higher levels mean more grace and ease for the transition, and more stable timelines.

As individuals who agreed to be present here on Earth right now, you each have your own puzzle pieces, all fitting into the bigger plan. This being said it is the time to be vigilant. Clear your energy fields daily. Align with your God Presence or I AM daily (*more if needed*). Use the tools which resonate most with you. Work with energetic grids in spaces of work and play and home. Be clear with your thoughts and intentions as you think of the new earth. Focus on the positive, the details of what you wish to co-create.

As the transition continues, fear arises with the chaos and changes. We ask you not to spread fear. Do not judge or condemn what is happening. Simply observe and focus on sending love to those involved. Please make your e-mails, your conversations and your social media discussions positive, light-filled, inspirational, and uplifting.

As your journey continues, we bless you and thank you for all you have done already!

*The Alchemy invites you to join us in Divine Service for the transition of Mother Gaia. You are welcome to join for one call or many. On Saturday, October 19th at 10 am we are seeking a large group of light & love workers to join us in our call. We hope you will be one of them. Visit our website at [www.thealchemycollective.org](http://www.thealchemycollective.org) or Facebook at Al Chemy for more details about us, to register for any calls, or to become part of our Heart Collective.*
